

Tips for younger artists

- You do not make an artwork. Art works in you.
Let it work.
- Limitations, are not boundaries. They are materials.
- Art is not the same as the 'art world'.
- Keep learning. Do whatever you have not done yet.
Don't get stuck in the past. → Accept your mistakes
- Respect yourself and your work.
Never allow negative treatment.
- Don't expect too much from very prestigious institutions and people. → overthinking 
- Worrying, judging, comparing with others, and pushing yourself too hard won't help you to be a better artist. Rest and breathe. → Take care of yourself
- Don't be an idiot with the planet.
Think about the materials you use.
- Trust in what you do, smile, chat with your friends, and keep working.
- Be yourself (It is more complex than you think, trust me).
